Articles and Authors for 1977

January

An Assessment of the Prospects for Widespread School Improvement–Sanford Temkin, Richard McCann and John Connolly
Implementing Cost-Effective Educational Technology: Some Reflections–Charles Blaschke and John Sweeney
Matrix Management in Education: Breaking Down School Bureaucracy–Fenwick W. English
Updating the Little Red Schoolhouse: Toward Developing a Pilot Model of Capital-Intensive Education to Promote Individualized Instruction and Stabilize Educational Costs–Austin D. Swanson and Edward J. Willett
Innovation and Educational Finance–Sam D. Sieber
Interactive Individualization: An Intermediate Instructional Technology–Sivasailam Thiagarajan
The "Problem" of the Schools–Francis Mechner
Managing Scarce Educational Resources–Thomas E. Morgan and J. Boyd Scribra
The Role of the Responsible Leader in Developing Better Schools for Less Money Through Adequate Evaluation Designs–Howard P. Alvir
Mastering Change in Education: Understanding the Anxieties Created by Change–Margaret S. Dwyer

□

February

Transactional Evaluation and the Improvement of Instruction–Robert M. Rippey
Instructional Design and Development: Accelerating the Process–Robert L. Brien and Nelson J. Towle
Assessing and Facilitating the Implementation of Innovations: A New Approach–Susan F. Loucks and Gene E. Hall
Individualized Instruction: The Promise, Requisites and Alternatives–M. Nawaz and S.A. Tanveer
Determining Costs of Educational Technology: An Exploratory Review and Analysis–Stanley P. Heath and Donald C. Orlich
Determining the Cost-Effectiveness of Instructional Technology–David A. Gallup
Designing Simulation/Gaming Activities: A Systems Approach–Francis D. Atkinson
The Who-What-How Model of Instructional Dimensions–Greg P. Kearsley
Ways to View Faculty Development–Robert Simerly
Package Paralysis–Roger Kaufman
Goal Development in Planning–Rudolf E. Klimes
Mastering Change in Education: Work Planning–Margaret S. Dwyer
Research Briefing: Research on Creativity–Thomas C. Reeves and Richard E. Clark

□

March

Planning for Future Outcomes: One District and Beyond–Bruce Wayne Tuckman, Lawrence J. Ondrejack and Jocelyn C. Williams
A Social Simulator: Development and Evaluation–Arthur S. Blaxwes and Dennis R. Weller
The MICA Project: A Sophisticated Operational CMI System–John D. Chapin and Jerry L. Patterson
A Field Tested Evaluation Model to Assess a CBTE Program–Jon J. Denton
Performance Aids as Adjuncts to Instruction–Robert W. Swezey
Competency Based Teacher Education: Zeroing In–Joseph J. Stowitschek
Biofeedback as an Educational Technology–Mark Everet Siegel
Models for Making Decisions About Controversial Instructional Materials–John E. Splaine
Costing Educational Technology: Some Promising Approaches–James P. Kielt and Dean R. Spitzer
Systematic Interpersonal Skill Development for Inner-City Youth: A Microcounseling Approach–Curtis H. Bradley
Self-Made Classroom Observation Instruments: An Aid to Self-Assessment–Gerald Douglass Bailey
Needed: Functional Literacy Skills Curricula and Tests–Robbie G. Davis
The Interdependency of Product and Process Assessment in Educational Evaluation–Ofelia Halasa
Allocating the Higher Education Book Budget: A Process That Works–C.D. Wright and J. Foster Watkins
Research Briefing: Using Questions to Increase Learning from Prose–Faith Stein and Richard E. Clark

□

April

Futurology Applied to Education: Some Basic Elements–Robert Johansen and Patricia Samuel
Toward a Systems Model for Instructional Development Success Factors–Robin E. Lawrason and John G. Hedberg
Implications of Implementing Competency Based Education in the Liberal Arts–Herbert Holt Jarrett, Jr.
The Use of Mastery Learning as a Classroom Management Model–John P. Dolly and Vana H. Meredith
The University in Transition–D.I. Cleland and H.E. Hoelscher
Human Transactions and Classroom Management: A Computer Based Unit in Teacher Education–Vincent N. Lunetta
Dynamics of Small-Group Instruction: A Teaching Workshop for Health Educators–Anne F. Marlowe and Sam Brown
Media and the Improvement of College Instruction–Phillip A. Sinclair and Patrick J. Warin
The Systems Approach to State Educational Planning–Thomas W. Hazard
Selection of Media by Media Centers–Earl L. Potter and G. Douglas Mayo
Recorded Telephone Messages: A Technique for Reducing Absenteeism–Ronald G. Bittle
A Computer Based Information System to Support a College of Education–Gary R. Smith
Teaching Grammar in the Elementary School with the Adjunct Study Guide–Meredith M. Powers and Thomas M. Sherman
The Learning Resources Center as a Counseling Center–John J. Watson and Terrill A. Mast
Research Briefing: Research on the Delphi Technique–Bernard J. Dodge and Richard E. Clark

□

May

Behavioral Objectives: The Position of the Pendulum–Introduction to Part One–Miriam B. Kapfer
The Nature and Role of Objectives in Instruction–Paul L. Dressel
Expanding Behavioral Objectives for Educational Design–Philip G. Kapfer
Conceptual Objectives for Domain-Referenced Education–Philip W. Tiemann
Education, Training and Behavioral Objectives–George L. Geis
Behavioral Objectives: The History and the Promise–H.H. McAshan
Letter to the Editor: "The Blind Elephant of Understanding"–J. Douglas Paulson

□

June

Behavioral Objectives: The Position of the Pendulum–Introduction to Part Two–Miriam B. Kapfer
Global Behavioral Objectives: A Foundation for Teacher Freedom, Instructional Efficiency and Accountability–Sidney J. Drumheller
The Competency-Based Movement: Origins and Future–W. Robert Houston and Allen R. Warner
Prospects for School Acceptance of Objectives-Based Instructional Programs–Fred C. Niedermeyer and Howard J. Sullivan
A Synergistic View of Behavioral Objectives and Behavior Modification–Terrence Piper
The Behavioral Objectives Movement: Its Impact on Physical Education–Anita J. Harrow
A Behavioral Typology of Educational Objectives for the Cognitive Domain–Reed G. Williams

□

July

The Major Factors That Affect Learning: A Cognitive Process Model–F. Cost Butler
Improving Classroom Instruction with Means-Referenced Objectives–Gerald Douglass Bailey
Piaget Does Not Live on "Sesame Street"–Kay Beck
Technology Assessment: An Antidote for Murphy's Law–Dean R. Spitzer and James P. Kielt
Determining Required Competence: A Need Assessment Methodology and Computer Program–Larrie E. Gale and Gaston Pol
Curriculum Choices: Producing Order Out of Chaos–M. Ann Dirkes
Guidelines for Administering Effective Text and Materials Selection–Terry B. Knapper
Yes-No and All-of-the-Time-to-Never–James S. DeGracie and Frank L. Vicino
The Humanist Primate on a Behaviorist Bicycle–Joel S. Gendelman and James Lewis
Academician's Zip-Phrase Inventory–Joseph H. Aromando
Research Briefing: Simulation/Gaming Research–Robert Hunter and Richard E. Clark

□

August

Developing Computer Literacy in Children: Some Observations and Suggestions–Thomas G. Holzman and Robert Glaser
Guided Group Problem-Solving in the Purdue Three-Stage Model of Instruction–Russell Ames, Kathryn Linden and John Feldhusen
Incentives in Instructional Development–Dean R. Spitzer
The Cost-Effectiveness of Instructional Media Technology in Higher Education–Edward P. Caffarella, Jr.
Cost Centers in Education: A Management Systems Approach to Standardized Planning, Budgeting and Reporting–Edward M. Jackowski and Richard P. Mills
The Organizational Climate Descriptive Questionnaire: A Process Feedback Application in an Elementary School–J. Foster Watkins and Allen D. Cleveland
PERT in Higher Education: An Application for Doctoral Students–Dorothy M. Hai
A Diagnostic-Prescriptive Computer Program for Pupil Screening–Stephen B. Lavine
Management-by-Objectives: Promise and Problems–Carmelo V. Sapone and Joseph R. Giuliano
Effects of a Slide-Series Testing Technique Upon Cognitive Learning in Graduate Classes–J. Hugh McTeer
Research Briefing: The Educational Significance of Field Dependence Research–Howard Rosenberg, Susan Mintz and Richard E. Clark

September

The Personalized System of Instruction (PSI)–Robert S. Ruskin
Personalized Instruction and Its Relation to Other Instructional Systems–Robert S. Ruskin and Rebecca L. Ruskin
PSI and Other Educational Technologies in College Teaching–James A. Kulik and Peter Jaksa
The Application of PSI to a Second Grade Classroom, or, The Lone Arranger Rides Again–Thomas J. Werner and Stephen F. Bono
Personalized Instruction at the Intermediate Grade School Level: Some Suggestions–T.F. McLaughlin
A New Direction in Teaching Writing–A.D. Van Nostrand
Medical Education and Personalized Instruction–Frank Schwimpfhauser and Keith Richardson
Large-Scale Individualized Instructional Systems: A Comparison of Three Working Models–John H. Hess, Jr.
Consumer-Based Education: Personalized Instruction at College IV–Robert J. Toft and Suzanne W. Toft
Future Trends in PSI Research–George Semb and Philip C. McKnight
Individualizing Instruction Is Not Enough–J. Gilmour Sherman
Research Briefing: Current Research on Spatial Ability and Instructional Methods–Carol A. Carrier and Richard E. Clark

□

October

Cybernetics and Education: Introduction to Special Issue–Felix F. Kopstein
Cybernetic Methods in Education–Leo N. Landa
Algorithms in Education–Vernon S. Gerlach, Robert A. Reiser and Fritz H. Brecke
Feedback Learning Theory as the Foundation of Educational, Training and Rehabilitative Technology–Karl U. Smith
Structural Approach to Behavioral Objectives and Criterion-Referenced Testing–Joseph M. Scandura
Task Specifications and Diagnosis in Educational Technology–Felix F. Kopstein
Cybernetics and Teacher/Child Interaction–Nancy E. Dworkin and Yehoash S. Dworkin
Educational Development as Systems Development–Bela H. Banathy
Teaching Machines Revisited in the Light of Conversation Theory–Gordon Pask and Felix F. Kopstein
A Cybernetic View of the Primary and Secondary Education System of Ontario–George Tracz and Donald Dunlop
Intervention Through Technology: The "Talking Typewriter" Revisited–Doreen Ray Steg and Ronald Schenk
Quasi-Algorithms and the Teaching of Grammar–Klaus Bung and Maria Jose Sanchez Carrasco
A Model for Improving Instruction in the Marine Air Command and Control System of the U.S. Marine Corps–Leonard C. Silvern and R. Hugh Porter

□

November

Needs Assessment in Perspective: Introduction to Special Issue–Roger Kaufman
Needs Assessment Kits, Models and Tools–Belle Ruth Witkin
The Politics of Needs Assessment–Fenwick W. English
Needs Assessment and the Practitioner: Problems and Prospects–Joseph A. Sarthory
Needs Assessment in Government: Rearranging the Deck Chairs on the Ship of State–Andrew S. Carron
Assessing Learner Needs with Criterion-Referenced Tests: A Working Approach–Ray L. Sweigert, Jr.
Applications of Needs Assessment in the Public Schools: Three Case Studies–Raymond G. Melton
The Use of Needs Assessment Techniques for Establishing Training Programs Responsive to the U.S. Army's Role–Wesley K. Roberts, Kathleen M. Daubek and John C. Johnston
Needs Assessment: A Study of Vocationally Related Needs for Secondary Special Education–Samuel E. Bowser and Eleanor R. Robinson
Needs Assessment in Higher Education: Starting Up in a Small College–Norman Murphy and Margaret Martin
Needs Assessment in Higher Education: The Mott Foundation Community College Model–Larry Morgan and David Feldman
Needs Assessment and Instructional Design–Walter Dick and Lou M. Carey
A Possible Taxonomy of Needs Assessments–Roger Kaufman

□

December

On Gaining Acceptance for Instructional Design in a University Setting–George L. Gropper
Research on Simulation Games in Education: A Critical Analysis–Robert A. Reiser and Vernon S. Gerlach
Educational Technology and the Computer–Wm. Clark Trow
Managing Reading Instruction: Comparative Analysis of Objective-Based Reading Programs–Cathy Stallard
Identifying Innovational Constraints: A Model for School Principals–Robert J. Krajewski and Paul E. Zintgraff
Course Development by Team: Some Advice on How Many Cooks Does It Take to Spoil the Broth?–David C. Forman and Penny Richardson
Design and Implementation of an Individualized Instruction Program–Joel J. Davis
A Competency-Based Teacher Education Program in Reading–Sidney R. Bergquist and Camille L.Z. Blachowicz
